

SHAIKH SABIR

Backend Developer – PHP | Laravel | MySQL
Mumbai, India | +91 8867374425 | sksair301@gmail.com

PROFESSIONAL SUMMARY

Backend Developer with nearly one year of professional experience building and maintaining web applications using PHP, Laravel, and MySQL. Skilled in designing and optimizing RESTful APIs, integrating third-party services, and improving application performance. Strong foundation in software development principles, database design, and collaborative agile workflows, with additional working knowledge of Python and FastAPI. Committed to writing clean, scalable, and maintainable code.

CORE SKILLS

Backend Development: PHP, Laravel, REST API Design & Development, MySQL (Database Design & Query Optimization)

Frontend: HTML5, CSS3, JavaScript, Bootstrap

Tools & Platforms: GitHub, Postman, VS Code, DBeaver

Additional: Python, Machine Learning Basics, FastAPI

Practices: CRUD Development, API Integration, Debugging & Testing, Agile Collaboration, Performance Optimization

PROFESSIONAL EXPERIENCE

Backend Developer — Kintree

Nov 2025 – Present

- Develop and maintain backend modules for web applications using Laravel and PHP.
- Design, build, and optimize RESTful APIs to support internal and client-facing applications.
- Manage MySQL database design, schema updates, and query optimization to improve performance.
- Integrate third-party APIs and external services into existing systems.
- Collaborate with frontend developers and project managers to deliver features on schedule.
- Identify, troubleshoot, and resolve bugs to improve application stability and performance.

Backend Developer Intern — Kintree

Aug 2025 – Oct 2025

- Assisted in the development of Laravel-based web applications.
- Built CRUD operations and REST API endpoints for internal projects.
- Supported database management tasks using MySQL.
- Participated in testing and debugging activities to ensure application quality.

Summer Intern — Kintree

May 2025 – Aug 2025

- Learned the software development lifecycle (SDLC) and standard project workflows.
- Assisted with website maintenance and backend support tasks.
- Gained hands-on experience with PHP, Laravel, and relational databases.

PROJECTS

- Food Recommendation System — Built a recommendation engine to suggest food items based on user preferences and data patterns.
- Emotion-Aware Chatbot — Developed a chatbot capable of detecting user emotion and adapting conversational responses accordingly.
- NEP Student Management System — Designed a system to manage student records and workflows aligned with the National Education Policy (NEP).

EDUCATION

Bachelor of Vocation (BVoc) in Software Development

2022 – 2025

Higher Secondary Certificate (HSC – 12th)

Secondary School Certificate (SSC – 10th)

ACHIEVEMENTS

- Successfully completed internship and secured a full-time role at Anvis Digital.
- Contributed to live client projects, delivering production-ready backend features.
